News Release

For Immediate Release: February 12, 2019

1:30 p.m. DOW update –Island wide conservation notice lifted, water conservation request continues for Kōloa, Lāwaʻi, Omao and Kapaʻa

KOLOA– The Department of Water (DOW) has lifted the water conservation notice for most of its customers as of approximately 1 p.m. this afternoon. However, upon further assessment of water systems and power outages affecting multiple well sites, the water conservation notice will remain in place for customers located in Kōloa, Lāwaʻi, Omao and Kapaʻa, until further notice. All other customers residing outside of these areas, may return to normal water use.

DOW customers located in Kōloa, Lāwaʻi, Omao and Kapaʻa are asked to continue water conservation efforts by limiting water use to essential uses only; such as cooking, drinking and sanitation purposes, in an effort to maintain water services where available until electrical power, system repairs and well site functions can be restored to normal.

An update will be provided as soon as new information becomes available. To monitor water service announcements online visit www.facebook.com/KauaiDOW.

To report a water service emergency contact the Department of Water at 245-5444, or after-hours contact Police Dispatch at 241-1711.
